

**Residents of the Danes Petition to HULL CITY Council**  
**against the Transformation of Orchard Park through**  
**the PFI**

We the undersigned residents of the Danes have had enough disruption caused by demolition and remodelling with extensive work to bring houses up to the decent homes standard and the devastating effects of the flooding during the last ten years. We therefore do not wish to have our houses demolished or suffer a further work program which may last another ten years or more.
